Madu River Ride - Enjoy a scenic cruise along the Madu River, a relaxing trip with plenty of interesting stops. You pass dozens of islets forested with mangroves and can appreciate the timeless natural rhythms of rural life. You cruise in canopies, outboard motors powered boats, en route take in the view of a 200-year-old temple and watch the local's cultivating cinnamon. You may also see traditional fishing techniques in action and can view demonstrations of coir manufacture and rope making. You can also see 46 species of birds reside in the area including 14 aquatic varieties. You will also spot huge water lilies and colorful butterflies.

Kosgoda Sea Turtle Conservation Project ("KSTCP")

Dudley Perera's project has been underway since 1988. The main aim of the project is to monitor local sea turtle activity and conserve the local nesting sites. We aim to make the public more aware of how endangered these beautiful creatures are and just how important it is to help protect them before it is too late.

One of the most important activities of the project is its hatchery. Within the sanctuary of the project, collected and rescued eggs can hatch safely away from predators before being released into the sea at night-time. In addition, a certain number from each hatching are kept back for a short period for 'headstarting' before release. The hatchery program is designed to maximize the number of hatchlings reaching the sea and surviving through the critical stages of their early life. Only a few hatchlings from each batch will ever make it to adulthood. Therefore, every nest-ground, every egg, every hatchling, and every turtle is crucial to the survival of the species. Unfortunately, sea turtles face many dangers.

Although there are several nightclubs and bars catering to young adults, those with live bands (mostly of excellent standard), are very popular with a more mature clientele
